The Finnish Transport Infrastructure agency (FTIA) does not usually charge for the use of platform areas at stations as event locations.

Political, religious or ideological events cannot be held in areas managed by FTIA. The event must not cause noise pollution or disturb the clear passage of passengers in the station and platform areas.

The permits for each event are reviewed on a case-by-case basis. We recommend contacting FTIA in connection with permits ([kuvausluvut@vayla.fi](mailto:kuvausluvut@vayla.fi)) well in advance, at least a few weeks before the planned event.
